BAKHTAWAR GHUNCHA

Cloud, Data & AI Security | Compliance & Governance Specialist

+92 305 8984427 bkghuncha@gmail.com https://linkedin.com/in/bakhtawar-ghunchas https://ghunchas.com/bk
Islamabad, Pakistan

SUMMARY

Cloud Security and AI Automation Engineer with Microsoft-verified expertise across Defender XDR, Purview, and Entra ID. SC-900 certified with 14 Microsoft Applied Skills, specializing in healthcare data security, AI governance, and agentic automation. Highly skilled in deploying DLP, sensitivity labeling, and securing Copilot/GenAI environments while ensuring compliance with HIPAA, NIST, ISO 27001,HITRUST, and GDPR. Currently advancing toward the SC-401 certification to further specialize in Microsoft 365 data security.

EXPERIENCE

Data Security – Project Ready Titan

Ghunchas Healthcare AI

Jan 2026 - Present Remote + In-office

- **Engineered** data protection frameworks using Microsoft Purview, configuring DLP, auto-labeling, and eDiscovery workflows to secure sensitive healthcare data.
- **Implemented** Microsoft Fabric and Purview governance projects, managing data lineage and securing multi-cloud environments for AI apps.
- **Secured** Microsoft 365 Copilot and GenAI applications by applying adaptive protection and insider risk policies to mitigate AI-specific data leakage.

Cybersecurity Intern

Ghunchas Work-Based Learning (UK)

Jan 2024 - Dec 2025 Remote

- **Configured** Defender XDR (device onboarding, KQL hunting, automated investigations), achieving a 95% score on the official Microsoft lab.
- **Completed** 45+ hours of advanced Microsoft Partner Skilling Hub training in AI Data Security and SC-401 Prep.
- **Delivered** 3+ technical workshops to peers on Entra ID, Purview, and secure AI implementation.

Microsoft Applied Skills Credentials

Microsoft

Jun 2025 - Present Remote

- **Earned 14 verified Microsoft Applied Skills**, demonstrating hands-on capability in enterprise security and AI automation.
- **Core competencies validated**: Microsoft Defender XDR, Purview (DLP, eDiscovery, Retention), Entra ID, Copilot Studio, Foundry SDK, and Azure Management.

PROJECTS

Enterprise Data Governance & Purview Implementation

- Implemented a comprehensive data governance framework using Microsoft Purview, configuring data retention and eDiscovery.
- Secured multi-cloud data environments and Microsoft 365 Copilot applications using AI data security controls and sensitivity labeling.

Agentic AI Workflow Automation

- Built autonomous AI agents using Microsoft Copilot Studio to navigate knowledge bases and execute multi-step business workflows.
- Integrated custom MCP servers into Microsoft Foundry SDK agents to automate incident response data retrieval.

EDUCATION

Level 3 Diploma in Cloud Cybersecurity

AI Nafi

Oct 2023 - Jan 2025 Remote

Cambridge A Level & O Level

University of Cambridge (UK)

Aug 2024 - Jan 2027 Private

Technical Skills & Professional Training

Microsoft Learn, SkillUp & Alison

- **Security & Governance**: Microsoft Purview (DLP, eDiscovery, Retention), Defender XDR, Entra ID, Zero Trust Architecture, RBAC, Insider Risk Management.
- **Healthcare & AI Compliance**: HIPAA, FHIR/HL7 (Healthcare Data Interoperability), Microsoft Fabric (Healthcare Solutions), Copilot Studio, Microsoft Foundry SDK, Power Automate.
- **Frameworks & Platforms**: NIST, ISO 27001, GDPR, SOX, ITGC, Microsoft Sentinel, Azure Security Center, Linux (RHEL), Python, PowerShell.
- **Certifications & Training:** 14x Microsoft Applied Skills | 12x Forage Simulations | SC-900 | Alison Medical Coding | SkillUp Courses.

KEY ACHIEVEMENTS

Microsoft SC-900 & SC-401

Certified in Security, Compliance, and Identity Fundamentals (**SC-900**); actively pursuing Information Security Administrator (**SC-401**).

Forage Cybersecurity Simulations

Completed 12 enterprise job simulations (PwC, Mastercard, Deloitte, AIG, Tata, ANZ) covering threat analysis, risk assessment, and incident response.

120+ Hours of Applied Training

Completed extensive hands-on security labs and technical workshops, transitioning from foundational IT to enterprise cloud security.
